

CITY OF DEERFIELD BEACH

(PLAN SPONSOR)

POLICE OFFICERS' RETIREMENT SYSTEM

Investment Policy Statement

I. PURPOSE OF INVESTMENT POLICY STATEMENT

The Pension Board of Trustees (Board) maintains that an important determinant of future investment returns is the expression and periodic review of the City of Deerfield Beach Police Officers' Pension Fund (the Plan) investment objectives. To that end, the Board has adopted this statement of Investment Policy and directs that it apply to all assets under their control.

In fulfilling their fiduciary responsibility, the Board recognizes that the retirement system is an essential vehicle for providing income benefits to retired participants or their beneficiaries. The Board also recognizes that the obligations of the Plan are long-term, and that investment policy should be made with a view toward performance and return over a number of years. The general investment objective is to obtain a reasonable total rate of return - defined as interest and dividend income plus realized and unrealized capital gains or losses - commensurate with the Prudent Investor Rule and any other applicable ordinances and statutes.

Reasonable consistency of return and achievement of the established rate of return assumption (ROR) is paramount. Investments shall be structured in a manner deemed appropriate for a mature, closed plan with no active members or associated contributions from the membership or the City. While the Board accepts that the investment program must be executed with a longer - term time horizon, achievement of the ROR assumption annually shall be an important consideration in the construction and implementation of the investment program.

The Board will employ investment professionals to oversee and invest the assets of the Plan. Within the parameters allowed in this document and their agreements with the Board, the investment management professionals shall have investment discretion over their mandates, including security selection, sector weightings and investment style.

The Board, in performing their investment duties, shall comply with the fiduciary standards set forth in Employee Retirement Income Security Act of 1974 (ERISA) at 29 U.S.C. s. 1104(a) (1) (A) - (C). In case of conflict with other provisions of law authorizing investments, the investment and fiduciary standards set forth in this section shall prevail.

II. TARGET ALLOCATIONS

In order to provide for a diversified portfolio, the Board has engaged investment professional(s) to manage and administer the fund. The investment manager(s) are responsible for the assets and allocation of their mandate only and may be provided an addendum to this Policy with their specific performance objectives and investment criteria. The Board has established the following asset allocation targets for the total fund:

Asset Class	Target	Range	Benchmark
Domestic Equity Securities	45%	40% - 55%	DJ Total Stk. Mkt. Index
Foreign Equity Securities	15%	10% - 20%	MSCI ACW xUS (net)
Composite Equity Portfolio	60%	50% - 70%	
Broad Market Fixed Income	20%	10% - 40%	Bloomberg U.S. Int. Agg.

Cash & Cash Equivalents	0%	0% - 5%	Citigroup 3-mth U.S. T-bill

**Benchmark will default to "broad market fixed income" if these portfolios are not funded.*

Targets and ranges above are based on market value of total Plan assets.

***The "strategy index" for other assets is defined as the most appropriate index, combination of indices, or absolute return target for the investment(s) in question.*

The Board working with the Investment Professionals will monitor the aggregate asset allocation of the portfolio and will rebalance to the target asset allocation based on market conditions. If at the end of any calendar quarter, the allocation of an asset class falls outside of its allowable range, barring extenuating circumstances such as pending cash flows or allocation levels viewed as temporary, the asset allocation will be rebalanced into the allowable range. To the extent possible, contributions and withdrawals from the portfolio will be executed proportionally based on the most current market values available. The Board does not intend to exercise short-term changes to the target allocation.

III. INVESTMENT PERFORMANCE OBJECTIVES

The following performance measures will be used as objective criteria for evaluating the effectiveness of the Investment Managers.

A. Total Portfolio Performance

1. The performance of the total portfolio will be measured for rolling three and five year periods. The Target Index for the Plan is defined in the TARGET ASSET ALLOCATION table included within this Policy.

3. On an absolute basis, the objective is that the return of the total portfolio will equal the actuarial earnings assumption over the effective life of the Plan, and on an annual basis with consideration given to general market volatility and systemic risk.

Many of these strategies will not be liquid allowing the Plan to take advantage of illiquidity premiums available in these markets. Investments may include Global Fixed Income, unconstrained bond strategies, structured credit securities, high yield corporate bonds, direct lending strategies, opportunistic credit funds, and distressed debt strategies. Eligible investments may include both rated and non-rated securities. Rated securities may include those rated below

The real estate portion of the total fund, defined as core, open ended private real estate, is expected to perform at a rate at least equal to the NFI-ODCE equal weight Index and rank in the top 40th percentile of the appropriate peer universe over three and five-year time periods.

F. Alternative and Other Asset Performance
