Effective January 1, 2007, Members who die or become disabled while serving on active duty military service which intervenes the Member's employment shall be entitled to the rights of this section even though such Member was not re-employed by the Village. Members who die or become disabled while on active duty military service shall be treated as though re-employed the day before the Member became disabled or died, was credited with the service they would have been entitled to under this section, and then either died a non-duty death while employed or became disabled from a non-duty disability.

Sec. 2-146.1. - Creation of plan and trust.

There is hereby created a trust fund for the General Employees of the Village of North Palm Beach, Florida, to be known as the Village of North Palm Beach General Retirement Fund. All assets of every description held for the benefit of the general employees retirement shall continue to be held in this trust and shall be administered as set forth in this Division 3 of Chapter 2 of the Village of North Palm Beach Code of Ordinances. This System is intended to be a tax qualified plan under Code Section 401(a) and meet the requirements of a governmental plan as defined in Code Section 414(d).

(Ord. No. 2010-07, § 3, 5-27-10)

Sec. 2-147. - Membership.

- (a) *Conditions of eligibility.* All employees as of the effective date and all future new employees who choose to participate, except employees of the fire department and police department who are members of the Fire and Police Retirement Fund, shall become Members of this system as a condition of employment. Effective for employees hired after October 1, 2006, employees may choose to participate in this plan or the Village's defined contribution plan. Employees have thirty (30) days from date of hire to elect which plan to join. Within thirty (30) days after the passage of this ordinance allowing the change, employees who elected to participate in the defined contribution plan will have a one time opportunity to elect to change back to the defined benefit plan. Members who elect to re-enroll in the defined benefit plan shall be required to make contributions as required by the terms of the plan, including contributions for the time the Member participated in the defined contribution plan. Members shall be permitted to roll over the accumulated defined contribution balance to defray the cost of the required contributions.

- (b) *Application for membership.* Each current and future eligible employee shall complete an application form covering its forth below, and provide other information, as may be prescribed by the Board.
- (1) Acceptance of the terms and conditions of the retirement system.
 - (2) Designation of a beneficiary or beneficiaries.
 - (3) A certified statement as to prior medical history.
 - (4) A written release allowing distribution of all medical records to the board.

For the purposes of all benefits hereunder, an application for membership shall be considered to have been in effect from date of employment, even though officially accepted and approved by the Board at a later date. Failure to complete an application within thirty (30) days of employment and written notice of this agreement shall constitute a deliberate choice to be excluded from the system and to participate in the defined contribution system.

- (c) *Change in designation of beneficiary.* A Member may, from time to time, change his designated beneficiary without approval by the board of trustees or previous beneficiary by written notice to the board upon forms provided by the board. Upon such change, the rights of all previously designated beneficiaries to receive any benefits under the system shall cease.

Sec. 2-148. - Benefit amounts and eligibility.

- (a) *Retirement date.*

- (1) A Member's normal retirement date shall be as follows:

- c. For Members hired after March 28, 1996, and any then active existing employees on March 28, 1996 who elect in writing, a Member's normal retirement date shall be the first day of the month coincident with, or next following, attainment of his or her sixtieth birthday and the completion of nine (9) full years of credited service with the Village.

- (2) Retirement date in general.

- a. A Member may retire on his or her applicable normal retirement date or on the first day of any month thereafter, and each Member shall become one hundred (100) percent vested in his or her accrued benefit on his or her normal retirement date.
- b. Employees who are vested and eligible to retire shall have the right to file a written election to be considered retired on the day before death if such employee should die prior to retirement. If an employee who is vested and eligible to retire dies prior to retirement without making the foregoing election, the election can be made by the employee's beneficiary previously designated in the Village records.

- (b) *Retirement benefit.* A Member retiring hereunder on or after his normal retirement date shall receive a monthly benefit which shall commence on his retirement date and be continued thereafter during his lifetime, ceasing upon death.

- (1) For Members hired on or before March 28, 1996, who did not elect the optional retirement benefit, and did not contribute to this benefit in accordance with Section 2-150, the Member's annual pension benefit shall

equal two (2) percent of final average earnings multiplied by the Member's credited service for the first twenty (20) years of credited service and one (1) percent for each year of credited service thereafter.

- (2) For Members hired after March 28, 1996, and any then Village employees who elected the optional retirement benefit in writing and who contributed a two (2) percent employee contribution in accordance with subsection 2-150(b), the Member's annual pension benefit shall equal two and one-quarter percent of final average earnings multiplied by the Member's credited service for the first twenty (20) years of credited service and one (1) percent for each year of credited service thereafter.
 - (3) For Members hired after December 11, 2003, and any then Village employees who elected the second optional retirement benefit and who contributed a four (4) percent employee contribution (not including the two (2) percent COLA contribution), the Member's annual pension benefit shall equal two and one-half percent of final average earnings multiplied by the Member's credited service for the first twenty (20) years of credited service and one (1) percent for each year of credited service thereafter.
- (c) *Late retirement.* A participant who retires after his normal retirement date shall be paid the monthly benefit otherwise payable to the participant at his normal retirement date increased by using the benefit formula for the applicable normal retirement together with consideration of his additional years or fractional parts of years of credited service and final average earnings.
- (d) *Early retirement.*
- (1) *Early retirement age.* A Member or a terminated vested participant may retire after age fifty-five (55) and shall receive a vested accrued benefit.
 - (2) *Early retirement benefit.* If a Member does retire early, his or her pension, calculated according to the employee's hire date and the applicable normal retirement benefit and contribution rate, shall be actuarially reduced for early retirement.
- (e) *Preretirement death.*
- (1) If a participant who is no longer an employee of the Village dies prior to the normal retirement date and has attained age fifty-five (55) and had five (5) years of credited service, a pension benefit of fifty (50) percent of the amount the participant would have been entitled to, actuarially reduced for early retirement, shall be paid to the surviving beneficiary for as long as the beneficiary shall live. Such amount shall be based on the amount payable under the fifty (50) percent joint and survivor option, reduced actuarially to the age of the beneficiary.
 - (2) If a Member dies prior to the normal retirement date while still employed by the Village and has five (5) years of credited service, such Member regardless of age shall receive pension benefits as set forth in subsection (3).
 - (3) The Members specified in subsection (2) above shall receive a benefit equal to the Member's vested accrued pension as computed under subsection 2-148(b) and shall be payable to the designated beneficiary in equal, consecutive monthly installments over ten (10) years. The benefit payment specified herein shall commence upon death of the plan Member and approval of the pension board.
- (f) *Termination of employment.* A participant who terminates his employment for reasons other than death or retirement and who has not opted for early retirement shall be entitled to a deferred monthly retirement benefit commencing at his normal retirement date equal to the product of his vested percentage, as determined from the following schedule, and his accrued benefit:

Credited Service	Vested Percentage
Less than 5	0
5 but less than 7	50

7 but less than 9	75
9 or more	100

- (g) *Refund of contribution.* All contributions made by employees whose employment is terminated for any reason prior to vesting shall receive a refund of all amounts contributed by the employee to the pension plan without interest. All contributions made by fully or partially vested employees whose employment is terminated for any reason shall have the option to receive a refund of all amounts contributed by the vested employee without interest. If such option is elected by the fully or partially vested employee, then such employee shall no longer be a part of the pension plan and shall not receive any pension benefits.

(Ord. No. 1-83, § 3, 1-13-83; Ord. No. 9-94, § 2, 6-9-94; Ord. No. 12-95, §§ 1, 2, 3-23-95; Ord. No. 35-2003, § 1, 12-11-03; Ord. No. 16-2004, § 1, 7-22-04; Ord. No. 2008-02, § 2, 1-10-08; Ord. No. 2010-07, § 5, 5-27-10)

Sec. 2-149. - Normal and optional forms of benefits.

- (a) The normal form of retirement benefit is a monthly benefit for life.
- (b) Each Member entitled to a normal, early, or late retirement benefit shall have the right, at any time prior to the date on which benefit payments begin, to elect to have this benefit payable under any of the options hereinafter set forth in lieu of such benefits and to revoke any such elections and make a new election at any time prior to the actual beginning of payments. The value of optional benefits shall be the actuarial equivalent of the value of benefits otherwise payable. The Member shall make such an election by written request to the board, such request being retained in the Board's files.

Option 1. Joint and last survivor option. The Member may elect to receive a benefit during his lifetime and have such benefit (or a designated fraction thereof) continued after his death to and during the lifetime of his designated beneficiary. The minimum joint and survivor percentage shall be fifty (50) percent, reduced actuarially to the age of the beneficiary. The election of option 1 shall be null and void if the designated beneficiary dies before the Member's benefit payments commence.

Option 2. Life annuity with ten years certain. The Member may elect to receive a monthly benefit for one hundred twenty (120) monthly payments certain. In the event the Member dies after his retirement, but before he has received retirement benefits for a period of ten (10) years, the same monthly benefit will be paid to the beneficiary (or beneficiaries) as designated by the Member for the balance of such ten-year period or, if no beneficiary is designated, to the surviving spouse, or estate of the Member.

Option 3. Other. In lieu of the optional forms enumerated in this section, benefits may be paid in any form approved by the Board so long as it is the actuarial equivalent of the benefits otherwise payable, provided, however, the Board shall not authorize any actuarial equivalent single or lump sum distributions except the lump sum payment of small retirement income provided for below.

Option 4. Social security adjustment option. If a Member retires before being eligible for social security benefits, he or she may elect an option to receive a larger pension up to the date he or she begins receiving social security benefits. The Member's pension benefits shall be appropriately reduced after social security payments begin. The amount of reduction shall be actuarially determined by the actuary.

- (c) *Lump sum payment of small retirement income.* Notwithstanding anything contained within section 2-148 and section 2-149 to the contrary, the Board, in its sole discretion, may elect to pay a lump sum payment to the

beneficiary or beneficiaries in lieu of installments when the present value of the accrued benefit is less than five thousand dollars (\$5,000.00). This provision applies to normal retirement, late retirement, early retirement, and preretirement death regardless of the fact that the Member elected retirement benefits to be made in monthly installments.

(Ord. No. 1-83, § 4, 1-13-83; Ord. No. 4-93, § 1, 1-14-93; Ord. No. 2010-07, § 6, 5-27-10)

Sec. 2-150. - Contributions.

- (a) *Village contributions.* So long as this system is in effect, the Village shall make a contribution to the trust fund in an amount equal to the total cost for the year as shown by the most recent actuarial valuation of the system. The total cost for any year shall be defined as the total normal cost, plus the additional amount sufficient to amortize the unfunded accrued past service liability over a forty-year period.
- (b) *Member contributions.*
 - (1) Members of the Fund shall make regular contributions to the Fund as follows:
 - a. For Members hired on or before March 28, 1996 who did not elect any optional benefits, including the Cost of Living Adjustment, the contribution rate shall be zero (0) percent of earnings.
 - b. For Members hired after March 28, 1996 and Members who elected in writing to participate in the optional benefits of a normal retirement age of sixty (60) with nine (9) years of credited services and a two and one-quarter percent multiplier, the employee contribution rate shall be two (2) percent of earnings;
 - c. For Members who were hired after May 11, 2000 and then current Village employees who elected to participate in the cost of living adjustment in Section 2-158.1, the employee contribution rate is two (2) percent. This contribution is in addition to the contribution provided for in subsection b above. Members who participate in both the optional benefit provided for in subsection b plus the Cost of Living in Section 2-158.1 shall have a contribution rate of four (4) percent.
 - d. For Members hired after December 11, 2003, the employee contribution rate is six (6) percent.
 - e. For Members who elected in writing to participate in the second optional benefits of the normal retirement age of sixty (60) with nine (9) years of credited service and a two and one half percent multiplier, the employee contribution rate shall be four (4) percent of the member's earnings. This four (4) percent contribution rate includes the contribution required by subsection b above, but does not include participation in the Section 2-158.1 cost of living. If the member elected the Section 2-158.1 cost of living plus the additional benefits provided for in this paragraph, the contribution rate totals six (6) percent.
 - (2) The Village shall pick-up, rather than deduct from each Member's pay, beginning with the date of employment, two (2) percent of the Member's basic compensation. The monies so picked-up shall be deposited in the Fund on a monthly basis. An account record shall be maintained continuously for each Member. Pick-up contributions shall continue until death, disability or termination of service, whichever shall occur first. Contributions shall remain in the fund unless withdrawn as provided in the Plan. No Member shall have the option to choose to receive the contributed amounts directly instead of having them paid by the Village directly to the plan. All such pick-up contributions by the Village shall be deemed and be considered as part of the Member's accumulated contributions and subject to all provisions of the Plan pertaining to accumulated contributions of Members. The intent of this provision is to comply with Section 414(h)(2) of the Internal Revenue Code. For paying Social Security taxes, and for such other purposes except as specified in this plan, the amount of employee contributions "picked-up" or paid by the Village will be added to the amount distributed on a current basis in order to determine total wages, salary, pay or compensation. In the event that the employer agrees to assume and pay Member contributions in lieu of direct contributions by the Member,

such contributions shall accordingly be paid into the plan on behalf of the Members. No Member subject to such agreement shall have the option of choosing to receive the contributed amounts directly instead of having them paid by the employer directly to the plan. All such contributions by the employer shall be deemed and considered as part of the Member's accumulated contributions and subject to all provisions of this plan pertaining to accumulated contributions of Members. The intent of this language is to comply with section 414(h)(2) of the Internal Revenue Code.

- (c) *Other contributions.* Private donations, gifts and contributions may be deposited to the fund, but such deposits must be accounted for separately and kept on a segregated bookkeeping basis. Funds from these sources may be used only for additional benefits for Members, as determined by the Board, and may not be used to reduce required Village contributions.

(Ord. No. 1-83, § 5, 1-13-83; Ord. No. 2010-07, § 7, 5-27-10)

The employee members of the Board shall be elected at large by full-time Village employee Members of the Plan. Employees who are elected cannot work in the same departments of the Village. The term of service of employees on the general retirement board shall be three (3) years, unless the employee member of the retirement board is sooner retired, disabled, resigns, terminates Village employment, is removed for misconduct by majority vote of the employees or the Village Council or is removed for nonparticipation by missing two (2) or more consecutive meetings.

The election to the Board shall be arranged by the Village clerk, who shall give reasonable notice of the election to the eligible voters. - (b) Should a vacancy occur in the position of a member serving as an employee member, the Village employees shall, within thirty (30) days, hold an election and elect a successor to serve. Should the member appointed by Village council resign or relinquish his duties on the general retirement board, his successor shall be appointed by the Village council within thirty (30) days to serve the remainder of the term or as otherwise determined by the Village Council. Should a vacancy occur in the position of the fifth member, the Board shall appoint a replacement within thirty (30) days.
- (c) The retirement Board hereby created shall perform all duties and enjoy all rights and powers vested by law or ordinance, and the village attorney may give advice and legal assistance to said retirement board in all matters pertaining to the performance of their duties, whenever requested and may prosecute and defend all suits which may be instituted by or against it; provided, however, the retirement Board may, in its discretion, employ independent legal counsel for such purposes.
- (d) The retirement Board shall have full authority to administer all the provisions of this division and shall cause all disbursements and receipt for all monies received by the fund through the office of the Village finance director or a custodian bank if one is employed. The retirement Board shall appoint a secretary who shall keep a complete record of all actions and proceedings by the Board.
- (e) The retirement Board shall continue to exist exclusively for the purpose provided by this division and related legislation, and the responsibility for the administration and proper operation thereof and for effectuating the

provisions of the law relating thereto, is vested in the retirement Board.

- (f) The Retirement Board shall have the authority to employ such professional, technical or other advisers as required to carry out the provisions of this Ordinance.
- (g) The Board shall have the power and authority to recommend an increase or decrease in the benefits payable hereunder, through the adoption of an amendment to this article but provided such action is based on an actuarial review by an enrolled actuary who is a member of the Society of Actuaries.
- (h) The Board shall discharge its duties solely in the interest of the participants and beneficiaries for the exclusive purpose of providing benefits to participants and their beneficiaries and defraying reasonable expenses of administration.

(Ord. No. 1-83, § 6, 1-13-83; Ord. No. 2006-14, § 1, 7-27-06; Ord. No. 2010-07, § 8, 5-27-10; Ord. No. 2017-02, § 2, 1-12-17)

Sec. 2-152. - Additional rules and regulations authorized.

The retirement Board shall have the power to adopt rules and regulations, not inconsistent with the provisions of this division, governing its activities and providing for the certification of the sum to be paid a retired Member from the general retirement fund.

(Ord. No. 1-83, § 7, 1-13-83; Ord. No. 2010-07, § 9, 5-27-10)

Sec. 2-153. - Investing funds; custodian of securities.

- (a) The retirement Board shall have the power and authority to retain the services of an investment advisor registered under the Investment Advisors Act of 1940 to invest and reinvest the assets of the general retirement fund in a manner consistent with laws and statutes governing the investment of the Fund. Legal title to the funds shall remain at all times in the name of the Fund.
- (b) The Village, or its designated funding agent, shall be the custodian of all securities, and the accretion thereof shall become a part of the general retirement fund. All funds and securities of the general retirement fund shall be deposited with the Village finance director who shall keep them in a separate fund, and shall be liable for the safekeeping of the same under the bond given to the Village and shall be liable in the same manner and to the same extent as is liable for the safekeeping of the funds of the Village as provided for by law. All funds now held by the Village for this retirement system are hereby transferred to the fund established by this division. The Board may in its discretion chose to retain services of a custodian bank.

Sec. 2-154. - Oaths of office; meetings; quorum.

Before entering upon their duties as members of the Board, each member shall take and subscribe to the oath of office required by the Village Charter, which oath shall be filed with the Village clerk. The Board shall meet as often as necessary or upon the call of the chairman or any member thereof or upon request of the Village clerk. All Board meetings shall be held at Village hall. A majority of the Board shall constitute a quorum for the transaction of any business. Notice of meetings shall be given to council and the public at least seven (7) days in advance.

(Ord. No. 1-83, § 9, 1-13-83; Ord. No. 06-2002, § 2, 2-28-02; Ord. No. 2010-07, § 11, 5-27-10)

Sec. 2-155. - Repeal or termination of system.

- (a) This division establishing the system and fund, and subsequent ordinances pertaining to the system and fund, may be modified, terminated or amended in whole or in part; provided that if this division or any subsequent ordinance

shall be amended or repealed in its application to any person benefiting hereunder, the amount of benefits which at the time of any such alteration, amendment or repeal shall have accrued to the Member or beneficiary shall not be affected thereby.

- (b) If this division is repealed and not superseded by another pension plan, or if contributions to the system are discontinued, the Board shall continue to administer the system in accordance with the provisions of this division, for the sole benefit of the then Members, any beneficiaries then receiving retirement allowances, and any future persons entitled to receive benefits under one (1) of the options provided for in this division who are designated by any of such Members. In the event of such repeal, or if contributions to the system are discontinued, there shall be full vesting of one hundred (100) percent of the accrued benefits to the person entitled to benefits in accordance with the provisions thereof.
- (c) Upon termination of the Fund by the Village for any reason, or because of a transfer, merger, or consolidation of governmental units, services, or functions as provided in Chapter 121, Florida Statutes, or upon written notice to the Board by the Village that contributions under the Fund are being permanently discontinued, the rights of all employees to benefits accrued to the date of such termination or discontinuance and the amounts credited to the employees' accounts are nonforfeitable. The Fund shall be distributed in accordance with the following procedures:
 - (1) The Board shall determine the date of distribution and the asset value required to fund all the nonforfeitable benefits, after taking into account the expenses of such distribution. The Board shall inform the Village if additional assets are required, in which event the Village shall continue to financially support the plan until all nonforfeitable benefits have been funded.
 - (2) The Board shall determine the method of distribution of the asset value, whether distribution shall be by payment in cash, by the maintenance of another or substituted trust fund, by the purchase of insured annuities, or otherwise, for each Member entitled to benefits under the plan, as specified in subsection (3).
 - (3) The Board shall distribute the asset value as of the date of termination in the manner set forth in this subsection, on the basis that the amount required to provide any given retirement income is the actuarially computed single-sum value of such retirement income, except that if the method of distribution determined under subsection (2) involves the purchase of an insured annuity, the amount required to provide the given retirement income is the single premium payable for such annuity. The actuarial single-sum value may not be less than the employee's accumulated contributions to the plan, with interest if provided by the Fund, less the value of any plan benefits previously paid to the employee.
 - (4) If there is asset value remaining after the full distribution specified in subsection (3), and after payment of any expenses incurred with such distribution, such excess shall be returned to the Village.
 - (5) The Board shall distribute, in accordance with the manner of distribution determined under subsection (2), the amounts determined under subsection (3).

(Ord. No. 1-83, § 10, 1-13-83; Ord. No. 2010-07, § 12, 5-27-10)

Sec. 2-156. - Miscellaneous.

- (a) *Discharged members.* Members entitled to a pension as approved by the pension Board shall not forfeit the same upon dismissal from the Village, but shall be retired as herein described.
- (b) *Nonassignability.* No benefit provided for herein shall be assignable or subject to garnishment for debt or for other legal process. However, the Board shall honor income deduction orders for alimony or child support in accordance with rules and procedures by the Board.
- (c) *Pension validity.* The Board of retirement shall have the power to examine into the facts upon which any pension shall heretofore or hereafter have been granted or obtained to determine if such pension was granted erroneously, fraudulently or illegally for any reason. The Board is empowered to purge the pension rolls of any person

heretofore or hereafter granted a pension under prior or existing law or heretofore granted under this division if the same is found to be erroneous, fraudulent or illegal for any reason; and to reclassify any pensioner who has heretofore under any prior or existing law or who shall hereafter under this division be erroneously, improperly or illegally classified.

- (d) *Incompetence.* If any member or beneficiary is a minor or is, in the judgment of the Board, otherwise incapable of personally receiving and giving a valid receipt for any payment due him under the system, the Board may, unless and until claims shall have been made by a duly appointed guardian of such person, make such payment or any part to such person's spouse, children or other person deemed by the Board, in its sole discretion, to have incurred expenses or assumed responsibility for the expenses of such person. Any payment so made shall be a complete discharge of any liability under the system for such payment.
- (e) *Bargaining unit employees.* Nothing herein shall limit the Village's authority to provide alternate retirement benefits to employees in each of the bargaining units provided:
 - (1) The benefit is provided pursuant to the terms of a collective bargaining agreement ratified by the Village council or is the subject of a waiver of bargaining or a memorandum of understanding.
 - (2) No vested benefit is reduced or eliminated.
 - (3) An actuarial impact statement disclosing the cost and effect of the modification is made and reviewed by the Village council prior to ratification of the collective bargaining agreement.
 - (4) The terms of the modification are incorporated in this chapter of the Village Code by amendatory ordinance.
- (f) *Maximum Pension.*
 - (1) *Section 415(b) Internal Revenue Code Limits.*
 - a. *Basic Limitations.* Notwithstanding anything to the contrary in this Plan, the provisions of Section 415 and its regulations are hereby incorporated by reference into this Plan. Subject to the adjustments in Code Section 415, the maximum amount of the actual annual retirement income paid in any year with respect to a Participant under this Plan attributable to employer provided benefits shall not exceed the dollar amount allowable for any calendar year pursuant to Code Section 415(b), as adjusted in such calendar year for increases in the cost of living in accordance with Regulations issued by the Secretary of the Treasury under Code Section 415(d). For purposes of applying the basic limitation, benefits payable in any form other than a straight life annuity with no ancillary benefits shall be adjusted, as provided by Treasury Regulations, so that such benefits are the Actuarial Equivalent of a straight life annuity. For purposes of this subsection Article, the following benefits shall not be taken into account:
 - 1. Any ancillary benefit which is not directly related to retirement income benefits;
 - 2. Any other benefit not required under Code Section 415(b)(2) and Treasury Regulations thereunder to be taken into account for purposes of the limitation of Code Section 415(b)(1).
 - b. For purposes of applying the limitations of Code Section 415(b), compensation includes those items as set forth in Regulation 1.415-2(d). This definition specifically includes the crediting of compensation while absent from service for military duty; such crediting shall to exceed the compensation that would have been credited under the System if System services had continued.
 - (2) *Additional Limitation on Pension Benefits.* Notwithstanding anything herein to the contrary:
 - a. The normal retirement benefit or pension to a retiree who becomes a Member of the Plan and who has not previously participated in such Plan, on or after January 1, 1980, shall not exceed one hundred (100) percent of his/her average final compensation. However, nothing contained in this section shall apply to supplemental retirement benefits or to pension increases attributable to cost-of-living increases or adjustments. In all events, distributions shall be limited by the applicable provisions of Code Section 415(b) limits.

- b. No Member of the Plan who is not now a Member of such Plan shall be allowed to receive a retirement benefit in part or in whole based upon any service with respect to which the Member is already receiving, or will receive, a retirement benefit or pension from another retirement system or plan. This restriction does not apply to so-called federal benefits under Chapter 67, Title 10, U.S. Code.
- (g) *Section 401(a)(17) Limitation on Compensation.* For any person who first becomes a Member in any plan year beginning on or after January 1, 1996, compensation for any plan year shall not include any amounts in excess of the limitation set forth in Code Section 401(a)(17) (as amended by the Omnibus Budget Reconciliation Act of 1993), which limitation shall be adjusted as required by federal law for qualified government plans and shall be further adjusted for changes in the cost of living in the manner provided by Code Section 415(d).
- (h) *Distribution of Benefits.* Notwithstanding any other provision of this Plan to the contrary, a form of retirement income payable from this Plan after the effective date of this ordinance, shall be made in accordance with the requirements of Code Section 401(a)(9), including the minimum distribution incidental benefit requirements of section 1.401(a)(9)-2 Code Section 401(a)(9)(G) to satisfy the following conditions:
 - (1) If the retirement income is payable before the Member's death:
 - a. It shall either be distributed or commence to the Member not later than April 1 of the calendar year following the later of the calendar year in which the Member attains age seventy and one-half (70½), or the calendar year in which the Member retires,
 - b. The distribution shall commence to them not later than the calendar year defined above; and shall be paid over the life of the Member or over the lifetimes of the Member and spouse, or dependent, or, shall be paid over the period extending not beyond the life expectancy of the Member and spouse, or dependent.

Where a form of retirement income payment has commenced in accordance with the preceding paragraphs and the Member dies before his/her entire interest in the Plan has been distributed, the remaining portion of such interest in the Plan shall be distributed no less rapidly than under the form of distribution in effect at the time of the Member's death.

- (2) If the Member's death occurs before the distribution of his/her interest in the Plan has commenced, the Member's entire interest in the Plan shall be distributed within five (5) years of the Member's death, unless it is to be distributed in accordance with the following rules:
 - a. The Member's remaining interest in the Plan is payable to his/her spouse, or dependent;
 - b. The remaining interest is to be distributed over the life of the spouse, or dependent or over a period not extending beyond the life expectancy of the spouse, or dependent; and
 - c. Such distribution begins within one (1) year of the Member's death unless the Member's spouse, or dependent shall receive the remaining interest in which case the distribution need not begin before the date on which the Member would have attained age seventy and one-half (70½) and if the spouse, or dependent dies before the distribution to the spouse, issue or dependent begins, this Section shall be applied as if the spouse, or dependent were the Plan Member.

(Ord. No. 1-83, § 11, 1-13-83; Ord. No. 08-2005, § 1, 5-26-05; Ord. No. 2010-07, § 13, 5-27-10)

Sec. 2-157. - Rollovers, direct transfers of eligible rollover distribution.

- (a) *General.* This section applies to distributions made on or after January 1, 1993. Notwithstanding any provision of the system to the contrary that would otherwise limit a distributee's election under this section, a distributee may elect, at the time and in the manner prescribed by the Board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.
- (b) *Definitions.*

- (1) *Eligible rollover distribution:* An eligible rollover distribution is any distribution of all or any portion of the balance of the distributee, except that an eligible rollover distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary or for a term of ten (10) years or more; any distribution to the extent such distribution is required under section 401(a)(9) of the Code; or any portion of any distribution that is not includable in gross income.
 - (2) *Eligible retirement plan:* An eligible retirement plan is an individual retirement account described in section 408(a) of the Code, an individual retirement annuity described in section 408(b) of the Code, an annuity plan described in section 403(a) of the Code, or a qualified trust described in section 401(a) of the Code, that accepts the distributee's eligible rollover distribution. However, in the case of an eligible rollover distribution to the surviving spouse, an eligible retirement plan is an individual retirement account or individual retirement annuity.
 - (3) *Distributee:* A distributee includes an employee or former employee. In addition, the employee's or former employee's surviving spouse is a distributee with regard to the interest of the spouse.
 - (4) *Direct rollover:* A direct rollover is a payment by the plan to the eligible retirement plan specified by the distributee.
- (c) *Rollovers from qualified plans.*
- (1) A Member may roll over all or part of his or her assets in another qualified plan to this Plan for the purpose of purchasing service provided all of the following requirements are met:
 - a. Some or all of the amount distributed from the other plan is rolled over to this plan no later than the sixtieth day after distribution was made from the plan or, if distributions are made in installments, no later than the sixtieth day after the last distribution was made.
 - b. The amount rolled over to the Plan does not include any amounts contributed by the member to the other plan on a post-tax basis.
 - c. The rollover is made in cash.
 - d. The Member certifies that the distribution is eligible for a rollover.
 - e. Amounts which the Board accepts as a rollover to this Fund shall, along with any earnings allocated to the Board, be fully vested at all times.
 - (2) In addition, the Fund may accept the direct transfer of a Member's benefits from another qualified retirement plan or Internal Revenue Code section 457 plan for purposes of purchasing service.
- (d) [*Mandatory distributions.*] In the event of a mandatory distribution greater than one thousand dollars (\$1,000.00) under this Plan, if the participant does not elect to have such distribution paid directly to an eligible retirement plan specified by the participant in a direct rollover or to receive such distribution directly, then the Board will pay the distribution in a direct rollover to an individual retirement plan designated by the Board. This section is effective for mandatory distributions after October 1, 2006.

Sec. 2-158. - Cost of living adjustment.

The amount of pension benefit will be increased in accordance with the changes in the consumer price index for urban wage earners (CPI-W) South, published by the U.S. Bureau of Labor Statistics. Adjustments of pension payments will be made on October 1 of each year reflecting the change in the consumer price index over the twelve-month period ending April 1 of that year. The maximum increase in the member's pension benefit for any one (1) year is three (3) percent. Such adjustments shall apply to each retirement, survivor or disability benefit in pay status as of each October 1.

This provision is mandatory for all employees hired after the May 11, 2000 and such employees shall contribute two (2) percent of their salary for this benefit. The cost of living adjustment and contribution of salary as specified in this section shall be optional with all employees who were hired prior to May 11, 2000.

The cost of living adjustment (COLA) set forth herein shall apply to all forms of benefits set forth in sections 2-148 and 2-149 of this Code.

Sec. 2-159. - Creation of trust and definitions.

- (a) *Creation of trust.* A pension and retirement system for full-time firefighters and police officers of the village is hereby established to provide retirement, survivor and disability benefits as provided by this division. The system shall be known as the Village of North Palm Beach Fire and Police Retirement Fund and is intended to be a tax qualified plan under Internal Revenue Code Section 401(a) and meet the requirements of a governmental plan as defined in Internal Revenue Code Section 414(d).
- (b) *Definitions.* As used herein, unless otherwise defined or required by the context, the following words and phrases shall have the meaning indicated:

Accrued benefit means the portion of a member's normal retirement benefit which is considered to have accrued as of any date. A member's accrued benefit for years of credited service earned before October 1, 2018 shall be equal to the sum of two and one-half percent of the member's average monthly earnings multiplied by the member's credited service for the first twenty-four (24) years; zero (0) percent of the member's average monthly earnings multiplied by the member's credited service for each year after twenty-four (24) years up to thirty (30) years; and two (2) percent of the member's average monthly earnings multiplied by the member's credited service for each year in excess of thirty (30) years. A member's accrued benefit for years of credited service earned on and after October 1, 2018 (provided the member was employed by the Village on or after July 11, 2019) shall be equal to two and three-fourths percent per year of service. The total accrued benefit shall not be greater than seventy-five (75) percent of average monthly earnings at the time of retirement (including entry into the DROP), but in all cases the accrued benefit earned on and after October 1, 2018 shall be at least two and three-fourths percent per year of service on and after October 1, 2018. For purposes of this calculation, average monthly earnings and credited service as of the date of determination shall be used. The accrued benefit is considered to be payable in the plan's normal form commencing on the member's normal retirement date, with such date determined as through the member remains in full-time employment with the employer.

Accumulated contributions means a member's own contributions plus interest credited thereto, if any, by the board.

Actuarial equivalence or *actuarially equivalent* means that any benefit payable under the terms of this plan in a form other than the normal form of benefit shall have the same actuarial present value on the date payment commences as the normal form of benefit. For purposes of establishing the actuarial present value of any form of payment, all future payments shall be discounted for interest and mortality by using seven (7) percent interest and the 1983 Group Annuity Mortality Table for Males, with ages set ahead five (5) years in the case of disability retirees.

Average monthly earnings means one-sixtieth of earnings of a member during the five (5) years of his employment within the last ten (10) years of employment, which is greater than the total during any other five (5) years during the ten-year period; provided that if a member shall have been employed for fewer than five (5) years, such average shall be taken over the period of his actual employment.

Beneficiary means the person or persons entitled to receive benefits hereunder at the death of a member who has or have been designated in writing by the member and filed with the board. If no such designation is in effect at the time of death of the member, or if no person so designated is living at that time, the beneficiary shall be the estate of the member.

Board means the board of trustees which shall administer and manage the plan herein provided and serve as trustee of the fund.

Credited service means the total number of years and fractional parts of years of service expressed as years and completed months, during which a person serves as an employee as defined below, omitting intervening years and fractional parts of years, when such person may not be employed by the employer; provided, however, such person may have, without interrupting his other years of credited service, up to one (1) year's leave of absence.

Notwithstanding the foregoing, no employee will receive credit for years or fractional parts of years of service for which he has withdrawn his contributions to the pension fund for those years or fractional parts of years of service unless he repays into the pension fund the contributions he has withdrawn, with interest, within ninety (90) days after his reemployment, as provided in section 2-160 below.

Further, an employee may voluntarily leave his contributions in the pension fund for a period of five (5) years after leaving the employ of the employer, pending the possibility of his being rehired, without losing credit for the time he has participated actively as an employee. Should he not be re-employed within five (5) years, his contributions shall be returned to him without interest.

It is provided further that credited service shall include any service, voluntary or involuntary, in the armed forces of the United States, provided the employee is legally entitled to re-employment under the provisions of the federal USERRA provisions or any similar law; and provided further that the employee shall apply for reemployment within the time and under the conditions prescribed by law. Effective January 1, 2007, members who die or become disabled while serving on active duty military service which intervenes the member's employment shall be entitled to the rights of this section even though such member was not re-employed by the village. Members who die or become disabled while on active duty military service shall be treated as though re-employed the day before the member became disabled or died, was credited with the service they would have been entitled to under this section, and then either died a non-duty death while employed or became disabled from a non-duty disability.

Early retirement date means for each member the first day of the month coincident with or next following the date on which he attains his fiftieth (50th) birthday.

Earnings means a member's gross salary, including overtime as provided below, public safety pay increment and special pay, but excluding bonuses, such as longevity, safety and attendance awards and any other non-regular payments such as unused sick leave or vacation time pay. Beginning with earnings after December 31, 2008 and pursuant to Internal Revenue Code Section 414(u)(7), the definition of earnings includes amounts paid by the village as differential wages to members who are absent from employment while serving in qualified military service. For Police Officer members only, effective the first full payroll following

October 1, 2013, Police Officers will be limited to three hundred (300) hours of overtime per officer per fiscal year. For Firefighter members only, effective the first full payroll following December 11, 2014, Firefighters will be limited to two hundred (200) hours of overtime per firefighter per fiscal year.

Effective date means March 1, 1967, the date on which this plan initially became effective. The effective date of this restated plan is the date as of which the village council adopts the plan.

Employer means the Village of North Palm Beach, Florida.

Firefighter means any person employed in the fire department who is certified as a firefighter as a condition of employment in accordance with the provisions of F.S. § 633.35, and whose duty it is to extinguish fires, to protect life, and to protect property. Member means an employee who fulfills the prescribed participation requirements.

Normal retirement date means for each member the first day of the month coincident with or next following the date on which the member attains age fifty-five (55) or the date on which the member attains age fifty-two (52) and has twenty-five (25) years of credited service. A member may retire on this normal retirement date or on the first day of any month thereafter.

Plan or system means the Village of North Palm Beach Fire and Police Retirement Fund as contained herein and all amendments thereto.

Plan year means each year commencing on October 1, and ending on September 30.

Police officer means any person employed in the police department who is certified as a law enforcement officer as a condition of employment in accordance with the provisions of F.S. § 943.14, and who is vested with authority to bear arms and make arrests, and whose primary responsibility is the prevention and detection of crime or the enforcement of the penal, criminal, traffic or highway laws of the state. This definition includes all certified supervisory and command personnel whose duties include, in whole or in part, the supervision, training, guidance, and management responsibilities of full-time law enforcement officers, part-time law enforcement officers, or auxiliary law enforcement officers, but does not include part-time law enforcement officers or auxiliary law enforcement officers as the same are defined in F.S. §§ 943.10(6) and 943.10(8), respectively. Any public safety officer who is responsible for performing both police and fire services and who is certified as a police officer or firefighter shall be considered a police officer.

Spouse shall mean the lawful wife or husband of a member at time of preretirement death or retirement.

- (b) *Application for membership.* Each eligible employee shall, within thirty (30) days of becoming eligible, complete an application form covering the following points, as well as such other points or items as may be prescribed by the

- (d) *Buy-back of previous service.* Each member of the plan who terminates his employment with the employer and who is subsequently reemployed by the employer shall be permitted to "buy-back" his previous credited service under the following conditions:
- (1) The length of time between the member's termination date and his subsequent reemployment date is not limited.

Sec. 2-161. - Benefit amounts.

(a) *Normal retirement benefit.*

- (1) *Amount.* Each member who retires on or after the member's normal retirement date shall be eligible to receive a normal retirement benefit commencing on the member's actual retirement date. A retiree's maximum monthly pension benefit shall not exceed seventy-five (75) percent of the retiree's average monthly earnings as that term is defined in Section 2-159 above. In all cases, the benefit provided for years of service on and after October 1, 2018 shall be at least two and three-fourths percent of average monthly earnings per year of service (provided the member was employed by the village on and after July 11, 2019). The monthly normal retirement benefit shall be calculated as follows:

- (2) *Form of benefit.* The normal retirement benefit shall commence on the member's actual retirement date and be payable on the first day of each month thereafter, with the last payment being the one next preceding the

retiree's death. If the member should die before one hundred twenty (120) monthly payments are made, payments are then continued to the designated beneficiary until one hundred twenty (120) monthly payments in all have been made, at which time the benefits cease.

- (3) *Optional forms of benefit.* In lieu of the form of benefit just described, a member may choose an optional form of benefit as provided in section 2-162 below.
 - (4) *One hundred (100) percent vesting.* Each member who attains normal retirement date or reaches ten (10) years of credited service shall be one hundred (100) percent vested in their accrued benefit.
- (b) *Early retirement benefit.* A member retiring hereunder on or after his early retirement date may receive either a deferred or an immediate monthly retirement benefit as follows:
- (1) A deferred monthly retirement benefit which shall commence on the normal retirement date and shall be continued on the first day of each month thereafter during his lifetime, guaranteed for one hundred twenty (120) monthly payments. The amount of the benefit shall be determined and paid in the same manner as for retirement at the member's normal retirement date except that average monthly earnings and credited service shall be determined as of his early retirement date; or
 - (2) An immediate monthly retirement benefit which shall commence on the member's early retirement date and shall be continued on the first day of each month thereafter during the member's lifetime and guaranteed for one hundred twenty (120) monthly payments. The benefit payable shall be as determined in subparagraph (1) above, reduced by three (3) percent per year by which the starting date of the benefit precedes the normal retirement date.
- (c) *Benefit formula.* The benefit formula applicable in all cases of retirement shall be that in effect on each member's employment termination date.
- (d) *Preretirement death.*
- (1) If a participant who is no longer an employee of the village dies prior to the normal retirement date and has attained age fifty (50) and had ten (10) years of credited service, a pension benefit of fifty (50) percent of the amount the participant would have been entitled to, actuarially reduced for early retirement, shall be paid to the surviving beneficiary for as long as the beneficiary shall live. Such amount shall be based on the amount payable under the fifty (50) percent joint and survivor option, reduced actuarially to the age of the beneficiary.
 - (2) If a member dies prior to the normal retirement date and is then employed by the village and has ten (10) years of credited service, such member regardless of age shall receive pension benefits as set forth in subsection (3).
 - (3) The members specified in subsection (2) above shall receive a benefit equal to the member's vested accrued pension as computed under section 2-161(d) and shall be payable to the designated beneficiary in equal, consecutive monthly installments over ten (10) years. The benefit payments specified herein shall commence upon death of the plan member and approval of the pension board.
- (e) *Disability retirement.*
- (1) A member may retire from the service of the village under the plan if, prior to his normal retirement date, he becomes disabled as defined in subsection (2) hereof. Such retirement shall herein be referred to as disability retirement. To be eligible for a non-duty disability benefit, a member shall have ten (10) or more years of credited service. There is no years of service requirement for eligibility for a duty disability benefit.
 - (2) a. *Non-duty disability.* A member will be considered for a non-duty disability benefit if in the opinion of the board, he is wholly prevented from rendering useful and efficient service as a police officer or firefighter, and such member is likely to remain so disabled continuously and permanently. Provided however the cause was not one of the exclusions listed in subsection (10).
 - b. *Duty disability.* A member will be considered for a duty disability benefit, if in the opinion of the board, he

is wholly prevented from rendering useful and efficient service as a police officer or firefighter, and such member is likely to remain so disabled continuously and permanently and the board finds that his injury or illness arose out of and in the course of his employment with the village. Provided however the cause was not one of the exclusions listed in subsection (10).

- (3) *Disability benefit.* A member retiring on a disability retirement from the village shall receive a benefit as follows:
- a. *Non-duty disability benefit.* The amount of the benefit for the non-duty disability benefit is determined and paid in the same manner as for retirement at the normal retirement date except that average monthly earnings and credited service shall be determined as of the member's last date of employment with the village. In any event the non-duty disability benefit shall be at least twenty-five (25) percent of the disabled member's average monthly earnings.
 - b. *Duty disability benefit.* The amount of the benefit for the duty disability benefit is determined and paid in the same manner as for retirement at the normal retirement date except that average monthly earnings and credited service shall be determined as of the member's last date of employment with the village. In any event the duty disability benefit shall be at least forty-two (42) percent of the disabled member's average monthly earnings.
- (4) No member shall be permitted to retire under the provisions of this section until examined by a duly qualified physician or surgeon, to be selected by the board for that purpose, and is found to be disabled in the degree and in the manner specified in this section. Any member retiring under this section shall be examined periodically by a duly qualified physician or surgeon or board of physicians or surgeons to be selected by the board for that purpose, to determine if such disability has ceased to exist.
- (5) The normal form of benefit payable to a member who retires with a total and permanent disability as a result of a disability commencing prior to his normal retirement date is the monthly income payable for ten (10) years certain and life. The disability retiree may also choose any of the optional benefits available in section 2-162 of this plan.
- (6) a. The monthly retirement income to which a member is entitled in the event of his disability retirement will be payable on the first day of each month. The first payment will be made on the first day of the month following the later to occur of:
1. The date on which the disability has existed for six (6) months, or
 2. The date the board approves the payment of such retirement income.
- b. The last payment will be:
1. If the member recovers from the disability prior to his normal retirement date, the payment due next preceding the date of such recovery; or
 2. If the member dies without recovering from his disability or attains his normal retirement date while still disabled, the payment due next preceding his death or the one hundred twentieth (120th) monthly payment, whichever is later.
- c. Any monthly retirement income payments due after the death of a disabled member shall be paid to the member's designated beneficiary.
- (7) If the board finds that a member who is receiving a disability retirement income is, at any time prior to his normal retirement date, no longer disabled, as provided herein, the board shall direct that the disability retirement income be discontinued. Recovery from disability as used herein shall mean the ability of the member to render useful and efficient service as a police officer or firefighter.
- (8) If the member recovers from the disability and reenters the service of the village as a police officer or firefighter, his service will be deemed to have been continuous, but the period beginning with the first month

for which he received a disability retirement income payment and ending with the date he reentered the service of the village will not be considered as credited service for the purpose of the plan.

- (9) Any condition or impairment of health of a member caused by tuberculosis, hypertension, heart disease, hardening of the arteries, hepatitis, or meningococcal meningitis resulting in total or partial disability or death, shall be presumed to be accidental and suffered in the line of duty unless the contrary be shown by competent evidence. Any condition or impairment of health caused directly or proximately by exposure, which exposure occurred in the active performance of duty at some definite time or place without willful negligence on the part of the member, resulting in total or partial disability, shall be presumed to be accidental and suffered in the line of duty, provided that such member shall have successfully passed a physical examination upon entering such service, which physical examination including electrocardiogram failed to reveal any evidence of such condition. In order to be entitled to presumption in the case of hepatitis, meningococcal meningitis, or tuberculosis, the member must meet the requirements of F.S. § 112.181. The final decision whether a member meets the requirements for duty disability pension rests with the board and shall be based on substantial competent evidence on the record as a whole.
- (10) A member will not be entitled to receive any disability retirement income if the disability is a result of:
 - a. Excessive and habitual use by the member of drugs, intoxicants, or narcotics;
 - b. Injury or disease sustained by the member while willfully and illegally participating in fights, riots, civil insurrections or while committing a crime;
 - c. Injury or disease sustained by the member while serving in any armed forces (this exclusion does not affect members who have become disabled as a result of intervening military service under the federal Heroes Earnings Assistance and Relief Tax Act of 2008 (H.R. 6081; P.L. 110-245);
 - d. Injury or disease sustained by the member after employment has terminated;
 - e. Injury or disease sustained by the member while working for anyone other than the village and arising out of such employment.
- (f) *Termination benefits and vesting.*
 - (1) Each member who terminates employment with the employer and who is not eligible for any of the retirement, death, or disability benefits set forth herein shall receive from the fund within a reasonable time following his date of termination a refund of his accumulated contributions. Provided, however, that if at the time of his termination of employment the member has ten (10) or more years of credited service, he shall have the option of either receiving his accumulated contributions or his accrued benefit payable commencing at the date which would have been his normal retirement date had he remained in full-time employment with the employer. The member may direct that his accrued benefit, reduced as for early retirement, commence at age fifty (50) or any date thereafter provided his accumulated contributions are not withdrawn.
 - (2) A refund of accumulated contributions to a member or his beneficiary shall constitute a full and complete discharge of any and all rights to claims or benefits under the system by the member or his beneficiaries.
- (g) *Cost of Living Adjustment.* The amount of pension benefit will be increased in accordance with the changes in the consumer index (CPI-W U.S.) published by the U.S. Bureau of Labor Statistics. Adjustments of pension payments will be made on October 1 of each year reflecting the change in the consumer price index over the twelve-month period ending April 1. The maximum increase in the pension benefit for any one (1) year is three (3) percent. Such adjustments shall apply to each retirement, survivor or disability benefit in pay status as of each October 1.

If there is a decrease in the CPI-W U.S. over the twelve-month period ending April 1, then the amount of the pension benefit will not increase again until there is an increase in that index beyond the prior high level of the CPI-W U.S. The prior high level of the CPI-W U.S. is the high water mark for purposes of future cost of living increases. After a decrease in the CPI-W U.S., there is no future cost of living increase until the index exceeds the most recent high water mark.

(h) *Limitations on benefits.* In no event may a member's annual benefit exceed the limitations of Internal Revenue Code Section 415 as such provisions apply to governmental pension plans. The provisions of Internal Revenue Code Section 415 that apply to governmental pension plans are hereby incorporated into this plan by reference. The maximum amount of the actual retirement income paid in any year with respect to a Participant under this Plan attributable to employer provided benefits shall not exceed the dollar amount allowable for any calendar year pursuant to Internal Revenue Code Section 415(b), as adjusted for increases in the cost of living in accordance with regulations issued by the Secretary of the Treasury under Internal Revenue Code Section 415(d). For purposes of applying the basic limitation, benefits payable in any form other than a straight life annuity with no ancillary benefits shall be adjusted, as provided by Department of Treasury regulations, so that the benefits are the Actuarial Equivalent of a straight life annuity.

(1) For purposes of this subsection, the following benefits shall not be taken into account:

- a. Any ancillary benefit which is not directly related to retirement income benefits; and
 - b. Any other benefit not required under Internal Revenue Code Section 415(b)(2) and Treasury Regulations issued thereunder to be taken into account for purposes of the limitation of Internal Revenue Code Section 415(b)(1).
- (2) *Cost-of-Living Adjustments.* The limitations as stated herein shall be adjusted annually in accordance with any cost-of-living adjustments prescribed by the Secretary of the Treasury pursuant to Internal Revenue Code Section 415(d).
- (3) For distributions after December 31, 2002, for purposes of Internal Revenue Code Section 415(b), the mortality table is the table used under Internal Revenue Code Section 417(e), as prescribed by the Secretary of the Treasury in Revenue Ruling 2001-62.
- (4) For any person who first becomes a member in any Plan year beginning on or after January 1, 1996, compensation for any Plan year shall not include any amounts in excess of the Internal Revenue Code Section 401(a)(17) limitation (as amended by the Omnibus Budget Reconciliation Act of 1993), which limitation shall be adjusted as required by federal law for qualified government plans and shall be further adjusted for changes in the cost of living in the manner provided by Internal Revenue Code Section 401(a)(17)(B). For any person who first became a member prior to the first Plan year beginning on or after January 1, 1996, the limitation on compensation shall be not less than the maximum compensation amount that was allowed to be taken into account under the Plan as in effect on July 1, 1993, which limitation shall be adjusted for changes in the cost of living since 1989 in the manner provided by Internal Revenue Code Section 401(a)(17).

(i) *401(a)(9) Required Distributions.*

- (1) Effective for distributions after December 31, 1996, in accordance with Internal Revenue Code Section 401(a)(9), all benefits under this Plan will be distributed, beginning not later than the required beginning date set forth below, over a period not extending beyond the life expectancy of the member or the life expectancy of the member and a beneficiary.
- (2) Any and all benefit payments shall begin by the later of:
 - a. April 1 of the calendar year following the calendar year of the member's retirement date; or
 - b. April 1 of the calendar year following the calendar year in which the member attains age seventy and one-half (70 ½).
- (3) If an employee dies before his entire vested interest has been distributed to him, the remaining portion of such interest will be distributed at least as rapidly as provided for under this Plan and will comply with the incidental death benefit under Internal Revenue Code Section 401(a)(9)(G).
- (4) All distributions under this Plan will be made in accordance with this section, Internal Revenue Code Section 401(a)(9) and the regulations thereunder, notwithstanding any provisions of this Plan to the contrary, effective beginning January 1, 2003.

Sec. 2-162. - Optional forms of benefits.

Each member entitled to a normal, early, disability or vested retirement benefit shall have the right, at any time prior to the date on which benefit payments begin, to elect to have his or her benefit payable under any one (1) of the options hereinafter set forth in lieu of benefits provided herein, and to revoke any such elections and make a new election at any time prior to the actual beginning of payments. The value of optional benefits shall be actuarially equivalent to the value of benefits otherwise payable, and the present value of payments to the retiring member must be at least equal to fifty (50) percent of the total present value of payments to the retiring member and his/her beneficiary. The member shall make such an election by written request to the board, such request being retained in the board's files. Notwithstanding any other provision of this section, a retired member may change his or her designation of joint annuitant or beneficiary up to two (2) times as provided in F.S. § 175.333 without the approval of the board of trustees or the current joint annuitant or beneficiary. The retiree is not required to provide proof of the good health of the joint annuitant or beneficiary being removed, and the joint annuitant or beneficiary being removed need not be living. Any retired member who desires to change his or her joint annuitant or beneficiary shall file with the board of trustees a notarized notice of such change. Upon receipt of a completed change of joint annuitant form or such other notice, the board of trustees shall adjust the member's monthly benefit by the application of actuarial tables and calculations developed to ensure that the benefit paid is the actuarial equivalent of the present value of the member's current benefit and there is no impact to the plan. The beneficiary or joint annuitant being removed will be assumed deceased by the actuary in determining the actuarially equivalent amount of the revised monthly payment. No retiree's current benefits shall be increased as a result of the change of beneficiary.

- (1) *Option 1—Joint and last survivor option.* The member may elect to receive a benefit, which has been adjusted to the actuarial equivalent of the normal form of benefit, during his/her lifetime and have such adjusted benefit (or a designated fraction thereof, for example one hundred (100) percent, seventy-five (75) percent, sixty-six and two-thirds percent or fifty (50) percent) continued after his death to and during the lifetime of his beneficiary. The election of option 1 shall be null and void if the designated beneficiary dies before the member's benefit payments commence.
- (2) *Option 2—Social security adjustment option.* If a member retires before being eligible for social security benefits, he may elect this option. A member may elect to receive a larger pension up to the date he begins receiving social security benefits. The member's pension benefits may be reduced or terminated after social security payments begin. The amount of reduction shall be actuarially determined.
- (3) *Option 3—Other.* In lieu of the other optional forms enumerated in this section, benefits may be paid in any form approved by the board so long as actuarial equivalence with the benefits otherwise payable is maintained, provided, however, that the board shall not authorize any actuarially equivalent single or lump sum distributions.

(Ord. No. 9-82, § 4, 6-10-82; Ord. No. 1-92, § 4, 2-13-92; Ord. No. 20-2000, § 3, 8-10-00; Ord. No. 13-2003, § 4, 5-8-03; Ord. No. 2008-18, § 5, 11-13-08; Ord. No. 2010-01, § 4, 1-14-10)

Sec. 2-163. - Contributions.

(a) *Member contributions.*

- (1) *Amount.* Members of the plan shall make regular contributions to the fund at rate equal to two (2) percent of their respective earnings.

For Police Officer members only:

- (i) Effective at the beginning of the first full payroll period after October 1, 2013, the Police Officer member contribution shall increase to two and sixty-seven one hundredths (2.67) percent;
- (ii) Effective the first full payroll period after October 1, 2014, the Police Officer member contribution shall increase to three and thirty-three one hundredths (3.33) percent; and
- (iii) Effective the first full payroll period after October 1, 2015, the Police Officer member contribution shall increase to four (4) percent.
- (iv) Effective the second payroll period following the adoption of Ordinance 2019-11, the Police Officer member shall contribute six (6) percent of earnings.
- (v) Effective the first payroll period after October 1, 2020, the Police Officer member shall contribute seven (7) percent of earnings.
- (vi) During participation in the DROP, Police Officer members shall contribute four (4) percent of earnings, with three (3) percent credited to the member's DROP account and one (1) percent applied to the Pension Plan Unfunded Actuarial Accrued Liability ("UAAL").

For Firefighter members only:

- (i) Effective the beginning of the first full payroll period after April 1, 2015, the Firefighter member contribution shall increase to three and one-half (3½) percent; and
 - (ii) Effective the first full payroll period after April 1, 2016, the Firefighter member contribution shall increase to five (5) percent.
 - (iii) Effective with the second payroll period following adoption of Ordinance No. 2019-11, the Firefighter member contribution shall increase from five (5) percent of earnings to seven (7) [percent] of earnings.
 - (iv) During DROP, the Firefighter member shall contribute four (4) percent of earnings, with three (3) percent credited to the member's DROP account and one (1) percent applied to the Pension Plan.
- (2) *Duration.* The village shall pick-up, rather than deduct from each member's pay, beginning with the date of employment, two (2) percent of the member's basic compensation. The monies so picked-up shall be deposited in the fund on a monthly basis. An account record shall be maintained continuously for each member. Pick-up contributions shall continue until death, disability or termination of service, whichever shall occur first. Contributions shall remain in the fund unless withdrawn as provided in the plan. No member shall have the option to choose to receive the contributed amounts directly instead of having them paid by the village directly to the plan. All such pick-up contributions by the village shall be deemed and be considered as part of the member's accumulated contributions and subject to all provisions of the plan pertaining to accumulated contributions of members. The intent of this provision is to comply with Section 414(h)(2) of the Internal Revenue Code. For paying Social Security taxes, and for such other purposes except as specified in this plan, the amount of employee contributions "picked-up" or paid by the village will be added to the amount distributed on a current basis in order to determine total wages, salary, pay or compensation. In the event that the employer agrees to assume and pay member contributions in lieu of direct contributions by the member, such contributions shall accordingly be paid into the plan on behalf of the members. No member subject to such agreement shall have the option of choosing to receive the contributed amounts directly instead of having them paid by the employer directly to the plan. All such contributions by the employer shall be deemed and considered as part of the member's accumulated contributions and subject to all provisions of this plan pertaining to accumulated contributions of members. The intent of this language is to comply with section 414(h)(2) of the Internal Revenue Code.
- (3) *Interest.* Interest shall be credited to member contributions as of September 30 of each year at a rate equal to the change in the consumer price index, published by the U.S. Bureau of Labor Statistics, over the twelve-

month period ending on the previous June 30. The maximum rate for any year shall be seven (7) percent and the minimum rate shall be zero (0) percent.

- (4) *Guaranteed refund.* All benefits payable under this plan are in lieu of a refund of accumulated contributions. In any event, however, each member shall be guaranteed the payment of benefits on his behalf at least equal in total amount to his accumulated contributions.
- (b) *State contributions.* Any monies received or receivable by reason of the laws of the State of Florida for the express purpose of funding and paying for the benefits of police officers or firefighters shall be deposited in the fund within the time prescribed by law. Such monies shall be for the sole and exclusive use of members or may be used to pay extra benefits for members.
- (c) *Employer contributions.* So long as this plan is in effect, the employer shall make contributions to the fund in an amount at least equal to the difference in each year as between the aggregate member and state contributions for the year and the total cost for the year as shown by the most recent actuarial valuation report for the system. The total cost for any year shall be defined as the total of normal cost plus the additional amount sufficient to amortize the unfunded actuarial liability in accordance with applicable laws of the State of Florida. The employer's contribution shall be deposited on at least a quarterly basis.
- (d) *Forfeitures.* Any forfeitures arising shall be applied to reduce future contributions to the plan. No forfeited amount shall be applied to change benefit amounts for members.

(Ord. No. 9-82, § 5, 6-10-82; Ord. No. 23-86, § 1, 12-11-86; Ord. No. 1-92, § 5, 2-13-92; Ord. No. 30-95, § 4, 10-12-95; Ord. No. 29-96, § 1, 7-25-96; Ord. No. 2014-11, § 4, 9-25-14; Ord. No. 2015-05, § 3, 4-9-15; Ord. No. 2019-11, § 2, 10-24-19)

Sec. 2-164. - Board of trustees—Generally.

- (a) *Composition .* The board of trustees shall consist of five (5) members: four (4) of whom shall be elected by a majority of the members of the plan. Two (2) of the elected members shall be certified firefighters of the village, and two (2) shall be certified police officers of the village. The fifth member of the board shall be a legal resident of the village and shall be appointed by the village council. Each of the elected board members shall be appointed for a period of four (4) years, unless he sooner leaves the employment of the village or forfeits membership on the board, whereupon a successor shall be elected by a majority of the members of the plan. Each of the elected board members may succeed himself in office. The resident member shall be a trustee for a term of four (4) years unless he forfeits membership on the board and he may succeed himself in office. The resident member shall be appointed by the village council for a term commencing October 1, 1998, and expiring April 30, 1999. The resident member shall be appointed by the village council for a two-year term commencing May 1, 1999, and on the first day of May of each second year thereafter. The resident member shall hold office at the pleasure of the village council. The fifth member shall have the same rights as each of the other four (4) members appointed or elected as herein provided. The trustees shall by majority vote elect from its members a chairman and a secretary. The secretary of the board shall keep a complete minute book of the actions, proceedings, or hearings of the board. The trustees shall not receive any compensation as such, but may receive expenses and per diem as provided by law.
- (b) *Report and records.* The secretary of the board shall keep, or cause to be kept in convenient form, such data as shall be necessary for an actuarial valuation of the assets and liabilities of the system. The fiscal year for the keeping of records and rendering reports shall be from October 1 through September 30.
- (c) *Board meetings.* The board shall meet at least quarterly each year. All board meetings shall be held at village hall. At any meeting of the board, three (3) trustees shall constitute a quorum. Any and all acts and decisions shall be by at least three (3) members of the board; however, no trustee shall take part in any action in connection with his or her own participation in the plan, and no unfair discrimination shall be shown to any individual participating in the plan.
- (d) *Power to bring and defend lawsuits.* The board shall be a legal entity with, in addition to other powers and responsibilities contained herein, the power to bring and defend lawsuits of every kind, nature and description. The

board shall be independent of the village to the extent required to accomplish the intent, requirements, and responsibilities provided for in this article and applicable law.

Sec. 2-165. - Prior service.

Unless otherwise prohibited by law, the years or fractional parts of years that a member previously served as a firefighter, police officer or public safety officer with the village during a period of employment and for which accumulated contributions were withdrawn from the fund, or the years and fractional parts of years that a member served as a firefighter, police officer or public safety officer for this or any other municipal, county, state or federal fire, police or public safety department, or any time served in the military service of the armed forces of the United States, shall be added to the years of credited service provided that:

- (1) The member contributes to the fund the sum that would have been contributed, based on the member's salary and the employee contribution rate in effect at the time that the credited service is requested, had the member been a member of this system for the years or fractional parts of years for which the credit is requested plus amount actuarially determined such that the crediting of service does not result in any cost to the fund plus payment of costs for all professional services rendered to the board in connection with the purchase of years of credited service.
- (2) Payment by the member of the required amount may be made within six (6) months of the request for credit and in one lump sum payment, or the member can buy back this time over a period equal to the length of time being purchased or five years, whichever is greater, at an interest rate which is equal to the fund's actuarial assumption. A member may request to purchase some or all years of service. No credit shall be given for any service until all years of service which are to be repurchased, have been repurchased.
- (3) The credit purchased under this section shall count for all purposes, except vesting.
- (4) In no event, however, may credited service be purchased pursuant to this section for prior service with any other municipal, county or state fire, police or public safety department, if such prior service forms or will form the basis of a retirement benefit or pension from another retirement system or plan.
- (5) If a member who has either completed the purchase of service or is in the process of purchasing service terminates service for any reason, including death or disability, before vesting, the member's contributions will be refunded, including the buyback contributions.
- (6) A request to purchase service may be made at any time during the course of employment. However, the buyback is a one time opportunity.

Editor's note— Prior to amendment section 7 of Ord. No. 1-92, adopted Feb. 13, 1992, repealed former § 2-165, relative to additional rules and regulations, which derived from Ord. No. 9-82, § 7, adopted June 10, 1982.

Sec. 2-166. - Board of trustees—Power and authority.

The board shall be the administrator of the system and, as such, it shall be solely responsible for administering the pension fund. The board shall have the power and authority:

- (1) To invest and reinvest the monies of the fund and to hold, purchase, sell, assign, transfer, and dispose of any securities and investments held in the fund, including the power and authority to employ counseling or investment management services. The aim of the investment policies shall be to preserve the integrity and security of fund principal, to maintain a balanced investment portfolio, to maintain and enhance the value of

the fund principal, and to secure the maximum total return on investments that is consonant with safety of principal, provided that such investments and re-investments shall be limited only by the investments permitted by the investment policy guidelines adopted by the board in accordance with Florida law. Further, notwithstanding the foregoing, investments in foreign investments are limited in accordance with F.S. §§ 175.071(1) and 185.06(1)(b)4. The board must discharge these duties with respect to the plan solely in the interest of the participants and beneficiaries and (i) for the exclusive purpose of providing benefits to participants and their beneficiaries and defraying reasonable expenses of administering the plan; (ii) with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims; and (iii) by diversifying the investments of the plan so as to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so.

Notwithstanding anything else in this subsection and as provided in F.S. § 215.473, the board of trustees must identify and publicly report any direct or indirect holdings it may have in any scrutinized company, as defined in that section. Beginning January 1, 2010, the board must proceed to sell, redeem, divest, or withdraw all publicly traded securities it may have directly in that company. The divestiture of any such security must be completed by September 10, 2010. The board and its named officers or investment advisors may not be deemed to have breached their fiduciary duty in any action taken to dispose of any such security, and the board shall have satisfactorily discharged the fiduciary duties of loyalty, prudence, and sole and exclusive benefit to the participants of the pension fund and their beneficiaries if the actions it takes are consistent with the duties imposed by F.S. § 215.473, as provided for by F.S. §§ 175.071(8) and 185.06(7) and the manner of the disposition, if any, is reasonable as to the means chosen. For purposes of determining which companies are scrutinized companies, the board may utilize the list of scrutinized companies as developed by the Florida State Board of Administration. No person may bring any civil, criminal, or administrative action against the board of trustees or any employee, officer, director, or advisor of such pension fund based upon the divestiture of any security pursuant to this subsection.

- (2) To issue drafts upon the pension fund pursuant to this article and rules and regulations prescribed by the board. All such drafts shall be consecutively numbered, be signed by the chairman and secretary or their designee, and state upon their faces the purpose for which the drafts are drawn. The village finance director or other depository of the village shall retain such drafts when paid, as permanent vouchers for disbursements made, and no money shall be otherwise drawn from the pension fund.
- (3) To finally decide all claims to relief under this article and under the board's rules and regulations.
- (4) To convert into cash any securities of the pension fund.
- (5) To keep a complete record of all receipts and disbursements and of the board's acts and proceedings.
- (6) To recommend an increase or decrease in the benefits payable hereunder, through the adaption of an amendment to this article, but provided such action is based on an actuarial review by an enrolled actuary who is a member of the Society of Actuaries.
- (7) To retain, at least once every three (3) years, an independent consultant professionally qualified to evaluate the performance of professional money managers. The independent consultant shall make recommendations to the board regarding the selection of money managers for the next investment term. These recommendations shall be considered by the board at its next regularly scheduled meeting. The date, time, place and subject of this meeting shall be advertised in a newspaper of general circulation in the municipality at least ten (10) days prior to the date of the hearing.

Sec. 2-167. - Tax on insurers.

- (a) There is hereby levied and imposed an excise tax upon every insurance company, corporation or other insurer insuring loss against fire, tornado or windstorm or engaged in the business of casualty insurance. Such excise tax shall be in an amount equal to the rate specified in Chapter 175, Florida Statutes, multiplied by the gross receipts of premiums from holders of insurance policies of fire and windstorm insurance, and the rate specified in Chapter 185, Florida Statutes, multiplied by the gross receipts of premiums from holders of insurance policies of casualty insurance. All such policies shall be upon property within the corporate limits of the village. Such excise tax shall be in addition to any and all excise taxes or license now levied or required by the village.
- (b) The proceeds of monies received under this excise tax shall be received annually from the State of Florida by the village and shall be deposited to the pension fund no more than five (5) days after receipt.

(Ord. No. 1-92, §§ 9, 10, 2-13-92)

Editor's note— Section 9 of Ord. No. 1-92, adopted Feb. 13, 1992, repealed former § 2-167, and § 10 of the ordinance enacted a new § 2-167 in lieu thereof. The repealed provisions pertained to oaths of office, meetings and quorums of the board, and derived from Ord. No. 9-82, § 9, adopted June 10, 1982.

Sec. 2-168. - Repeal or termination of plan.

- (a) This plan and subsequent amendments pertaining to said plan, may be modified, terminated, or amended, in whole or in part by the employer; provided that if this plan shall be amended or repealed in its application to any person benefitting hereunder, the amount of benefits which at the time of any such alteration, amendment, or repeal shall have accrued to the member or beneficiary shall not be affected thereby.
- (b) Upon termination of the plan by the village for any reason, or because of a transfer, merger, or consolidation of governmental units, services, or functions as provided in chapter 121, or upon written notice to the board of trustees by the village that contributions under the plan are being permanently discontinued, the rights of all employees to benefits accrued to the date of such termination or discontinuance and the amounts credited to the employees' accounts are nonforfeitable. The fund shall be distributed in accordance with the following procedures:
 - (1) The board of trustees shall determine the date of distribution and the asset value required to fund all the nonforfeitable benefits, after taking into account the expenses of such distribution. The board shall inform the village if additional assets are required, in which event the village shall continue to financially support the plan until all nonforfeitable benefits have been funded.
 - (2) The board of trustees shall determine the method of distribution of the asset value, whether distribution shall be by payment in cash, by the maintenance of another or substituted trust fund, by the purchase of insured annuities, or otherwise, for each police officer and firefighter entitled to benefits under the plan, as specified in subsection (3).
 - (3) The board of trustees shall distribute the asset value as of the date of termination in the manner set forth in this subsection, on the basis that the amount required to provide any given retirement income is the actuarially computed single-sum value of such retirement income, except that if the method of distribution determined under subsection (2) involves the purchase of an insured annuity, the amount required to provide the given retirement income is the single premium payable for such annuity. The actuarial single-sum value may not be less than the employee's accumulated contributions to the plan, with interest if provided by the plan, less the value of any plan benefits previously paid to the employee.
 - (4) If there is asset value remaining after the full distribution specified in subsection (3), and after payment of any expenses incurred with such distribution, such excess shall be returned to the village, less return to the state of the state's contributions, provided that, if the excess is less than the total contributions made by the village

and the state to date of termination of the plan, such excess shall be divided proportionately to the total contributions made by the village and the state.

- (5) The board of trustees shall distribute, in accordance with the manner of distribution determined under subsection (2), the amounts determined under subsection (3).

Sec. 2-169. - Miscellaneous.

- (a) *Discharged members.* Members entitled to a pension shall not forfeit the same upon dismissal from the employer, but shall be retired as herein described.
- (b) *Non-assignability.* No benefit provided for herein shall be pledgable, assignable or subject to garnishment for debt or for other legal process, provided, however:
- (1) The board shall honor court income deduction orders for the payment of alimony or child support in accordance with rules and procedures adopted by the board of trustees; or
- (2) Upon written request by the retiree, the board of trustees may authorize the Plan administrator to withhold from the monthly retirement payment funds necessary to:
- a. Pay for benefits being received through the village;
- b. Pay the certified bargaining agent; or
- c. To pay for premiums for accident health and long-term care insurance for the retiree's spouse and dependants. A retirement plan does not incur liability for participation in this permissive program if its actions are taken in good faith pursuant to F.S. §§ 175.061(7) and 185.05(6).
- (c) *Pension validity.* The board of trustees shall have the power to examine into the facts upon which any pension shall heretofore have been granted under any prior or existing law, or shall hereafter be granted or obtained erroneously, fraudulently, or illegally for any reason. The board is empowered to purge the pension roll of any person theretofore granted a pension under prior or existing law or hereafter granted under this plan if the same is found to be erroneous, fraudulent or illegal for any reason; and to reclassify any pensioner who has heretofore under any prior or existing law or who shall hereafter under this plan be erroneously, improperly or illegally classified.
- (d) *Incompetents.* If any member or beneficiary is a minor or is, in the judgment of the board, otherwise incapable of personally receiving and giving a valid receipt for any payment due him under the plan, the board may, unless and until claims shall have been made by a duly appointed guardian or committee of such person, make such payment or any part thereof to such person's spouse, children, trust or other person deemed by the board to have incurred expenses or assumed responsibility for the expenses of such person. Any payment so made shall be a complete discharge of any liability under the plan for such payment.
- (e) *Number and gender.* When appropriate the singular in this plan shall include the plural and vice versa, and the masculine shall include the feminine and vice versa.
- (f) *False or misleading statements made to obtain retirement benefits prohibited.*
- (1) It is unlawful for a person to willfully and knowingly make, or cause to be made, or to assist, conspire with, or urge another to make, or cause to be made, any false, fraudulent, or misleading oral or written statement or withhold or conceal material information to obtain any benefit under this plan.
- (2) a. A person who violates subsection (f)(1) of this section commits a misdemeanor of the first degree, punishable as provided in F.S. section 775.082 or 775.083.
- b. In addition to any applicable criminal penalty, upon conviction for a violation described in subsection (f) (2)a. of this section participant or beneficiary of this plan may, in the discretion of the board of trustees, be required to forfeit the right to receive any or all benefits to which the person would otherwise be

entitled under this plan. For purposes of this subsection (f)(2)b., "conviction" means a determination of guilt that is the result of a plea or trial, regardless of whether adjudication is withheld.

Sec. 2-170. - Direct transfers of eligible rollover distribution.

- (1) *General.* This section applies to distributions made on or after January 1, 1993. Notwithstanding any provision of the system to the contrary that would otherwise limit a distributee's election under this section, a distributee may elect, at the time and in the manner prescribed by the board, to have any portion of an eligible retirement plan specified by the distributee in a direct rollover.
- (2) *Definitions.*
 - (A) The term "Code" as used herein refers to the Internal Revenue Code of the United States.
 - (B) *Eligible rollover distribution:* An eligible rollover distribution is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten (10) years or more; any distribution to the extent such distribution is required under Section 401(a)(9) of the Code excluding hardship distributions; and the portion of any distribution that is not includable in gross income. For purposes of a direct rollover, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions which are not includable in gross income. However, such portion may be paid only to an individual retirement account or annuity described in Section 408(a) or (b) of the Code, or to a qualified defined contribution plan described in 401(a) or 403(a) of the Code that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution which is includable in gross income and the portion of such distribution which is not so includable.
 - (C) *Eligible retirement plan:* An eligible retirement plan is: an individual retirement account described in Section 408(a) of the Code; an individual retirement annuity described in Section 408(b) of the Code; a qualified trust; an annuity plan described in Section 403(a) of the Code; an eligible deferred compensation plan described in Section 457(b) of the Code which is maintained by eligible employer described in Section 457(e)(1)(A) of the Code or an annuity contract described in Section 403(b) of the Code that accepts the distributee's eligible rollover distribution and agrees to separately account for amounts contributed into such plan from this plan; or a qualified trust described in Section 401(a) of the Code, that accepts the distributee's eligible rollover distribution. However, in the case of an eligible rollover distribution to the surviving spouse, an eligible retirement plan is an individual retirement account or individual retirement annuity.
 - (D) *Distributee:* A distributee includes an employee or former employee. In addition, the employee's or former employee's surviving spouse is a distributee with regard to the interest of the spouse.
 - (E) *Direct rollover:* A direct rollover is a payment by the plan to the eligible retirement plan specified by the distributee.
- (3) *Mandatory distributions.* In the event of a mandatory distribution greater than one thousand dollars (\$1,000.00) under this Plan, if the participant does not elect to have such distribution paid directly to an eligible retirement plan specified by the participant in a direct rollover or to receive such distribution directly, then the Board will pay the distribution in a direct rollover to an individual retirement plan designated by the Board. This section is effective for mandatory distributions after October 1, 2006.

Sec. 2-170.1. - Deferred option benefit plan (DROP).

- (a) Effective upon the adoption of the Ordinance from which this section derived, a Deferred Retirement Option Plan ("DROP") benefit is created and added to the Plan and shall be available to employees upon reaching their normal retirement date.
- (b) Upon entry into the DROP, an employee is considered retired for pension plan purposes.
- (c) An employee may elect to participate in the DROP provided the employee makes the election no later than thirty (30) days after reaching the employee's normal retirement date. Notwithstanding the foregoing, upon first enactment of the Ordinance from which this section derived, members must make their initial election to participate in the DROP by the later of:
 - (1) Thirty (30) days after reaching their normal retirement date; or
 - (2) Ninety (90) days after creation of the DROP.
- (d) An election to participate in the DROP must be made in writing and shall become irrevocable thirty (30) days following the date it is received by the Pension Administrator and the Village's Director of Human Resources.
- (e) An employee who elects to participate in the DROP may participate in the plan for a maximum of sixty (60) months. The application to enter into the DROP shall include an irrevocable letter of resignation effective upon the last day of DROP participation. Employees who participate in the DROP may elect to terminate their participation prior to sixty (60) months of participation, but may not continue participation beyond sixty (60) months from the date of entry into the DROP.
- (f) An eligible employee who elects to participate in the DROP shall have the employee's benefit calculated based on credited service, multiplier, and average monthly earnings determined as of the effective date of the employee's election to participate in the DROP. No further credited service, benefit changes, or changes in earnings shall be considered for pension purposes.
- (g) After entering the DROP, a participant shall not be eligible for disability or pre-retirement death benefits under the Plan. This provision is not intended to limit entitlement to any statutory line of duty death benefit under state or federal law.
- (h) A DROP account shall be established for each employee who elects to participate. These are not actual accounts; rather they are nominal accounts and balances kept as a bookkeeping process.
- (i) During the period of the employee's participation in the DROP, the employee's normal retirement benefit shall be accounted for in the employee's DROP account.
- (j) The employee's DROP account shall be invested with the retirement plan assets and credited with the overall net (earnings less costs) investment rate of return on the retirement plan assets during the period of the employee's participation in the DROP and the crediting rate will be no less than zero (0) percent and no more than 6.40 percent.
- (k) At the conclusion of the employee's participation in the DROP, and as a condition of participating in such plan, the employee will terminate Village employment. The retiree will thereafter receive a normal monthly retirement benefit as previously calculated upon entry into the DROP, but the monthly amount will be paid to the retiree and no longer accounted for in the DROP account. If the employee does not terminate participation in the DROP at the end of the sixty (60) month maximum participation period, no earnings shall be credited on the DROP balance and no further DROP deposits shall be made.
- (l) No amount can be paid from the retirement plan until the DROP employee terminates employment.
- (m) Upon termination, the retiree's DROP account will be distributed to the retiree in a lump sum, which can be rolled over or paid in cash at the retiree's discretion. Direct rollover may be accomplished by any reasonable means determined by the Board.
- (n) If a retiree dies before distribution of the retiree's DROP account commences, the account balance shall be distributed to the retiree's designated beneficiary in a lump sum, which can be rolled over or paid in cash at the beneficiary's discretion.

- (o) Distribution of an employee's DROP account shall begin as soon as administratively practicable following the employee termination of employment. The employee must elect the distribution within forty-five (45) days following the employee termination date. If the employee does not timely request the withdrawal of the asset in the DROP, no further earning credited on the DROP balance.
- (p) Any form of payment selected by the employee must comply with the minimum distribution requirements of the IRC 401(A)(9), i.e., payments must commence by age 70.50.

(Ord. No. 2019-11, § 2, 10-24-19)

Sec. 2-170.2. - Use of insurance premium tax revenue.

The 2015 Florida Legislature enacted Chapter 2015-39, Laws of Florida (hereinafter "Legislation") regarding the use of insurance premium tax revenue ("IPTR"). The Fund meets or exceeds the minimum benefits and minimum standards established by the State of Florida for public employee police officer and firefighter pension plans as set forth in F.S. chs. 175 and 185. The Legislation provides that use of IPTR, including any accumulations of additional premium tax revenues which have not been allocated to fund benefits in excess of the minimum benefits, may deviate from the provisions of the Legislation by mutual consent of the collective bargaining agents of the police officer and firefighter employees. This provision of the Plan reflects the mutual agreement of the Village and the respective collective bargaining agents that all IPTR, whether base premium at revenue or additional premium tax revenue, received by the Village will be used by the Village to meet its annual actuarially required contribution ("ARC") to the Fund.

(Ord. No. 2019-11, § 2, 10-24-19)

Sec. 2-170.3. - Defined contribution component.

Pursuant to the requirements of F.S. §§ 175.351(6) and 185.35(6), a defined contribution component is established in addition to the defined benefit component of this local law plan. This defined contribution component is not currently funded. Once the plan is funded, the Board has the authority to adopt rules regarding the operation of the defined contribution component of the local law plan.
